## Peroxidase

### 产品信息

生物活性	Peroxidase actively involves in oxidizing <b>reactive oxygen species</b> , innate immunity, hormone biosynthesis and pathogenesis of several diseases.
CAS	9003-99-0
中文名称	
分子量	
体外研究	<p>Peroxidases belong to a large family of isoenzymes present in almost all living organisms. These are generally heme containing enzymes ranging in Mw from 35-100 Kd. Mammalian peroxidases are much larger proteins (576-738 amino acids) than the plant counterparts. Peroxidases exist as monomers, dimers or tetramers and their gene locations also vary among different chromosomes. Peroxidases have some organ, tissue, cellular and sub-cellular specific distribution patterns, performing some specific functions.</p> <p><b>The accuracy of these methods have not been independently confirmed. They are for reference only.</b></p>
