

Tetramethylammonium acetate hydrate

货号: **AYB26813**

产品信息

生物活性	Tetramethylammonium acetate hydrate is a biochemical reagent that can be used as a biological material or organic compound for life science related research.
CAS	10581-12-1
中文名称	四甲基乙酸铵
分子量	133.19
体外研究	
体内研究	
形式	Solid
运输条件	Room temperature in continental US; may vary elsewhere.
保存条件	
溶解性	
纯度
