

Inhoffen Lythgoe diol

货号: **AYB26931**

产品信息

生物活性	Inhoffen Lythgoe diol is a biochemical reagent that can be used as a biological material or organic compound for life science related research.
CAS	64190-52-9
中文名称	骨化三醇杂质4
分子量	212.33
体外研究	
体内研究	
形式	Solid
运输条件	Room temperature in continental US; may vary elsewhere.
保存条件	
溶解性	
纯度
