

# AMP-PNP lithium hydrate

货号: **AYB27256**

## 产品信息

生物活性	AMP-PNP lithium hydrate is a non-hydrolyzable analog of ATP. AMP-PNP can replace ATP for biological research and is not hydrolyzed by intracellular enzymes. In the study of BtuCD-F, a vitamin B12 transporter, it was found that AMP-PNP can block the channel formed by the two BtuCDs of the BtuCD-F complex, thereby preventing the entry of vitamin B12.
