抗原信息

抗原信息	Recombinant fusion protein corresponding to Human Asparagine synthetase.
------	--

靶点信息

研究背景	The protein encoded by this gene is involved in the synthesis of asparagine. This gene complements a mutation in the temperature-sensitive hamster mutant ts11, which blocks progression through the G1 phase of the cell cycle at nonpermissive temperature. Alternatively spliced transcript variants have been described for this gene.
基因ID	440
基因名	ASNS

Swiss	P08243
别名	Asparagine synthetase
