FSHB Rabbit pAb

货号: **AYP15479**

产品信息

| | |
|-------|------------------------------------------------------------------------------------------------------|
| 反应 | Mouse,Rat |
| 宿主 | Rabbit |
| 克隆性 | Polyclonal |
| 预测反应 | |
| 应用 | WB |
| 推荐浓度 | WB: 1:500 - 1:2000 |
| 理论分子量 | 14kDa |
| 实测分子量 | 14kDa |
| 形式 | Liquid |
| 保存条件 | Store at -20°C. Avoid freeze / thaw cycles. Buffer: PBS with 0.01% thiomersal,50% glycerol,pH7.3. |
| 偶联物 | Unconjugated |
| 阳性对照 | Mouse brain,Mouse lung,Rat brain |
| 细胞定位 | Secreted |
| 纯化 | Affinity purification |

抗原信息

| | |
|------|-------------------------------------------------------------------------------------------------------------------|
| 抗原信息 | Recombinant fusion protein containing a sequence corresponding to amino acids 19-129 of human FSHB (NP_000501.1). |
|------|-------------------------------------------------------------------------------------------------------------------|

靶点信息

| | |
|-------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 研究背景 | The pituitary glycoprotein hormone family includes follicle-stimulating hormone, luteinizing hormone, chorionic gonadotropin, and thyroid-stimulating hormone. All of these glycoproteins consist of an identical alpha subunit and a hormone-specific beta subunit. This gene encodes the beta subunit of follicle-stimulating hormone. In conjunction with luteinizing hormone, follicle-stimulating hormone induces egg and sperm production. Alternative splicing results in two transcript variants encoding the same protein. |
| 基因ID | 2488 |
| 基因名 | FSHB |
| Swiss | P01225 (https://www.uniprot.org/uniprotkb/P01225/entry) |
| 别名 | FSHB,HH24,FSHB Rabbit pAb,Follicle-stimulating hormone beta subunit,Follitropin beta chain |

产品验证

Western blot analysis of FSHB expressed in Mouse brain, Mouse lung, Rat brain using FSHB Rabbit pAb at 1:1000. Secondary antibody: HRP Goat Anti-Rabbit IgG (H+L) at 1:5000. Lysates/proteins: 30ug per lane. Blocking buffer: 5% non-fat dry milk in TBST. Detection: ECL Enhanced Kit. Exposure time: 120s.
