

# GUCA2A Rabbit pAb

货号: B15752

产品信息

|       |                                                                                                        |
|-------|--------------------------------------------------------------------------------------------------------|
| 反应    | Human,Mouse,Rat                                                                                        |
| 宿主    | Rabbit                                                                                                 |
| 克隆性   | Polyclonal                                                                                             |
| 预测反应  |                                                                                                        |
| 应用    | WB                                                                                                     |
| 推荐浓度  | <b>WB:</b> 1:500 - 1:2000                                                                              |
| 理论分子量 | 12kDa                                                                                                  |
| 实测分子量 | 12kDa                                                                                                  |
| 形式    | Liquid                                                                                                 |
| 保存条件  | Store at -20°C. Avoid freeze / thaw cycles.<br>Buffer: PBS with 0.02% sodium azide,50% glycerol,pH7.3. |
| 偶联物   | Unconjugated                                                                                           |
| 阳性对照  | U-251MG,Mouse small intestine,Rat small intestine                                                      |
| 细胞定位  | Secreted                                                                                               |
| 纯化    | Affinity purification                                                                                  |

抗原信息

|      |                                                                                                                      |
|------|----------------------------------------------------------------------------------------------------------------------|
| 抗原信息 | Recombinant fusion protein containing a sequence corresponding to amino acids 22-115 of human GUCA 2A (NP_291031.2). |
| 序列   | VTVQDGNFSFSLESVKKLDLQEPQEPRVGKLRNFAPIPGEPVVPILCSNPNFPEELKPLCKEPNAQEILQRLEEIAEDPGTCE ICAYAACTGC                       |

靶点信息

|      |                                                                                                                                                           |
|------|-----------------------------------------------------------------------------------------------------------------------------------------------------------|
| 研究背景 | Endogenous activator of intestinal guanylate cyclase. It stimulates this enzyme through the same receptor binding region as the heat-stable enterotoxins. |
| 基因ID | 2980                                                                                                                                                      |
| 基因名  | GUCA2A                                                                                                                                                    |

|       |                                    |
|-------|------------------------------------|
| Swiss | Q02747                             |
| 别名    | GUCA2A;GCAP-I;GUCA2;STARA;guanylin |
