

Peroxidase

货号: **B26746**

Peroxidase

产品信息

生物活性	Peroxidase actively involves in oxidizing reactive oxygen species , innate immunity, hormone biosynthesis and pathogenesis of several diseases.
CAS	9003-99-0

体外研究	<p>Peroxidases belong to a large family of isoenzymes present in almost all living organisms. These are generally heme containing enzymes ranging in Mw from 35-100 Kd. Mammalian peroxidases are much larger proteins (576-738 amino acids) than the plant counterparts. Peroxidases exist as monomers, dimmers or tetramers and their gene locations also vary among different chromosomes. Peroxidases have some organ, tissue, cellular and sub-cellular specific distribution patterns, performing some specific functions.</p> <p>The accuracy of these methods have not been independently confirmed. They are for reference only.</p>
