

Palmitic anhydride

货号: **B26881**

产品信息

生物活性	Palmitic anhydride is a biochemical reagent that can be used as a biological material or organic compound for life science related research.
CAS	623-65-4
中文名称	软脂[酸]酐
分子量	494.83
体外研究	
体内研究	
形式	Solid
运输条件	Room temperature in continental US; may vary elsewhere.
保存条件	4°C, stored under nitrogen, away from moisture
溶解性	
纯度
