

# α-Galactosidase

货号: **B27098**

## alpha-Galactosidase

### 产品信息

生物活性	α-Galactosidase (EC 3.2.1.22), that is, α-galactosidase, is a glycoside hydrolase that widely exists in <b>animals, plants</b> and <b>microorganisms</b> , and is often used in biochemical research. α-Galactosidase catalyzes the hydrolysis of α-1,6-linked terminal galactose residues, including galactooligosaccharides, galactomannans, and galactolipids. Catalyzes many catabolic processes including cleavage of glycoproteins, glycolipids and <b>polysaccharides</b> .
