

omega-3 Arachidonic Acid ethyl ester

货号: B28038

产品信息

生物活性	omega-3 Arachidonic Acid ethyl ester is a rare polyunsaturated fatty acid found in very small amounts in dietary sources. Omega-3 fatty acids are known to be essential for the growth and development of infants, and they protect against heart disease, blood clots, high blood pressure, and inflammatory and autoimmune diseases. In human platelet membranes, omega-3 arachidonic acid inhibits arachidonoyl-CoA synthetase with a K_i of 14 μ M. It also inhibits arachidonoyl-CoA synthetase in calf brain extract with an IC_{50} of approximately 5 μ M. Omega-3 ethyl arachidonate is the more lipophilic form of the free acid.
CAS	123940-93-2
中文名称	(8Z,11Z,14Z,17Z)-ICOSA-8,11,14,17-四烯酸乙酯
